GREEN RESOURCES PUBLIC COMPANY LIMITED AND SUBSIDIARIES

REVIEW REPORT AND INTERIM FINANCIAL INFORMATION FOR THE THREE-MONTH AND SIX-MONTH PERIOD ENDED JUNE 30, 2020

INDEPENPENT AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To The Shareholders and Board of Directors of Green Resources Public Company Limited

I have reviewed the accompanying consolidated statement of financial position of Green Resources Public Company Limited and its subsidiaries as at June 30, 2020 and the related consolidated statement of comprehensive income for the three-month and six-month periods ended June 30, 2020, changes in shareholders' equity and cash flows for the six-month period then ended and the condensed consolidated notes to financial statements and have reviewed the separate financial information of Green Resources Public Company Limited as well. Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standards No. 34 "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

SCOPE OF REVIEW

I conducted my review in accordance with Thai standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

CONCLUSION

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standards No. 34 "Interim Financial Reporting".

EMPHASIS OF MATTER

I draw attention to Note 2.3 to the interim financial statements. Due to the impact of COVID-19 pandemic, in preparing the interim financial information for the three-month period ended March 31 2020, the Group has adopted the Accounting Guidance on "Temporary relief measures on accounting alternatives in response to the impact of the COVID-19 situation" announced by the Federation of Accounting Professions. My conclusion is not modified in respect of this matter.

OTHER MATTER

The consolidated statements of financial position of Green Resources Public Company Limited and its subsidiaries, and the separate statements of financial position of Green Resources Public Company Limited as at December 31, 2019, presented herewith for comparative information, were audited by another auditor who expressed an unqualified opinion in his report dated February 26, 2020, the consolidated statements of comprehensive income for the three-month and six-month periods ended June 30, 2019, changes in shareholders' equity and consolidated cash flows for the six-month period ended June 30, 2019 of Green Resources Public Company Limited and its subsidiaries, and the separate statements of comprehensive income for the three-month and six-month period ended June 30, 2019 of Green Resources Public Company Limited and its subsidiaries, and the separate statements of comprehensive income for the three-month and six-month periods ended June 30, 2019, changes in shareholders' equity and cash flows for the six-month period ended June 30, 2019 of Green Resources Public Company Limited, presented herewith for comparative information, were reviewed by another auditor who stated that nothing had come to his attention that caused him to believe that the interim financial information was not prepared, in all material respects, in accordance with Thai Accounting Standard No.34 "Interim Financial Reporting" in his report dated August 9, 2019.

GREEN RESOURCES PUBLIC COMPANY LIMITED AND SUBSIDIARIES NOTES TO THE INTERIM FINANCIAL STATEMENTS JUNE 30, 2020

1. GENERAL INFORMATION

Registration :	The Company has listed in The Stock Exchange of Thailand on August 17, 2005,
	registration No. 0107548000587.
Head office :	405 Soi 13 Bond Street Road, Bang Pood Subdistrict, Pak Kret District, Nonthaburi.
Project location	
A Company I :	242/1 Moo 4, Phatthana Nikhom Sub-district Phatthana Nikhom, Lopburi.
Subsidiary I :	350-351 Khlong Muang, Pak Chong, Nakhon Ratchasima.
Subsidiary II :	304 Sakhwan, Muang Sakaeo, Sakaeo.
Type of business :	The Company engaged in business of real estate development, Generate and
	distribution of electricity from solar.

2. BASIS FOR THE PREPARATION OF FINANCIAL STATEMENTS

2.1 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting", and the requirements of the Securities and Exchange Commission (SEC). The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events, and situations and not intended to re-emphasis on the information previously reported. The interim financial statements should therefore, be read in conjunction with the financial statements for the year ended December 31, 2019.

The interim financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the financial statements in Thai language version

- 2.2 Basis for the preparation of consolidated financial statements
 - 2.2.1 The consolidated financial statements have included the financial statements of Green Resources Public Company Limited and its subsidiaries as follows:

		Percentage of shareholding (% of share capital)			
Company name	Type of business	As at June 30, 2020	As at December 31, 2019	Country of establishment

	electricity from solar				
Ventus Solar Company Limited*	Generate and distribution of	-	49.00	Thailand	
	electricity from solar				

* Changes follow Note 10 in the interim financial statements

- 2.2.2 The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- 2.2.3 Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- 2.2.4 The consolidated financial statements are prepared by using uniform accounting policies. So that the transaction and the others event which are the same or the similar circumstances have been used the identical policies to record those transaction.
- 2.2.5 Material balances and transactions between the Company and its subsidiary companies have been eliminated from the consolidated financial statements.
- 2.2.6 Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately in the consolidated profit or loss and within equity in the consolidated statement of financial position.

Consolidation of financial statements of subsidiaries which the Company and subsidiaries owned less than 50%

The management has considered that the Company and ACD Energy Co., Ltd., a subsidiary, have the power to control the power of SK-1 Power Co., Ltd. and Ventus Solar Co., Ltd. although they hold shares and have rights to voting in that company with only 49% and 49%, respectively. Due to the company and subsidiaries can order important activities of that company apart from other shareholders in both companies, which are only minor shareholders. Therefore, both companies are considered subsidiaries of the business group and must be included in the preparation of the consolidated financial statements from the date the company and subsidiaries has controlling power in the said business.

2.3 Thai Financial Reporting Standards that become effective in the current year

During the period, the Company and its subsidiaries have adopted the revised and new financial reporting standards, interpretations and the accounting guidance, which are effective for fiscal years beginning on or after January 1, 2020. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards. Except, the new standard involves changes to key principles, as summarized below.

Financial reporting standards related to financial instruments:

A set of TFRSs related to financial instruments, which consists of five accounting standards and interpretations, as follows:

TFRS 9Financial InstrumentsTAS 32Financial Instruments: PresentationTFRIC 16Hedges of a Net Investment in a Foreign OperationTFRIC 19Extinguishing Financial Liabilities with Equity Instruments	TFRS 7	Financial Instruments: Disclosures
TFRIC 16Hedges of a Net Investment in a Foreign Operation	TFRS 9	Financial Instruments
	TAS 32	Financial Instruments: Presentation
TFRIC 19 Extinguishing Financial Liabilities with Equity Instruments	TFRIC 16	Hedges of a Net Investment in a Foreign Operation
	TFRIC 19	Extinguishing Financial Liabilities with Equity Instruments

These TFRSs related to financial instruments make stipulations relating to the classification of financial instruments and their measurement at fair value or amortized cost (taking into account the type of instrument, the characteristics of the contractual cash flows and the Company's business model), calculation of impairment using the expected credit loss method, and hedge accounting. These include stipulations regarding the presentation and disclosure of financial instruments. When the TFRSs related to financial instruments are effective, some accounting standards, interpretations and guidance which are currently effective will be cancelled. The Company and its subsidiaries has adopted TFRS related to financial instruments the first-time in its financial statements by applying modified retrospective approach of adoption of which the cumulative effect as an adjustment to the retained earnings as at January 1, 2020 and the comparative information was not restated. The cumulative effect of the change is described in Note 4 to the interim financial statements.

TFRS 16 Leases

TFRS 16 Leases supersedes TAS 17 Leases together with related Interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases, and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is low value.

Accounting by lessors under TFRS 16 is substantially unchanged from TAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles to those used under TAS 17.

As at January1, 2020, the Company and its subsidiaries had adopted TFRS 16, which the Company and its subsidiaries recognized the cumulative effects of the initial application of this financial reporting standard without restated the previous year's financial statements presented for comparative. However, the Company and its subsidiaries had chosen to comply with this financial reporting standard with the lease that was previously classified as operating lease by recognizing the liabilities under the lease as at January 1, 2020 with the present value of the remaining lease payment and discounted by the interest rate of the additional borrowing of the Company as at the initial application date. It was recognized the contractual use rights in the amount of liabilities under lease agreements adjusted by the amount of the prepaid or accrued lease payments which were related to the lease agreement recognized in the statement of financial position before the date of application of this financial reporting standard.

The effect of the change in accounting policy is described in Note 4 to the interim financial statements.

Accounting Treatment Guidance on "Temporary relief measures on accounting alternatives in response to the impact of the COVID-19 situation"

The Federation of Accounting Professions announced Accounting Treatment Guidance on "Temporary relief measures on accounting alternatives in response to the impact of the COVID-19 situation". Its objectives are to alleviate some of the impact of applying certain financial reporting standards, and to provide clarification about accounting treatments during the period of uncertainty relating to this situation. On April 22, 2020, the Accounting Treatment Guidance was announced in the Royal Gazette and it is effective for the financial statements prepared for reporting periods ending between January 1, 2020 and December 31, 2020.

The Company and its subsidiaries have elected to apply the following temporary relief measures on accounting alternatives:

- Not to take into account forward-looking information when determining expected credit losses, in cases where use a simplified approach to determine expected credit losses.
- To measure the fair value of investments in unquoted equity instruments using the fair value as at January 1, 2020.
- Not to include information relating to the COVID-19 situation that may affect financial forecasts. In the future, used in conjunction with relevant fair value measurement techniques TFRS 13, Fair Value.
- Not to include information relating to the uncertain COVID-19 situation, which may affect the estimation of future taxable profits. Into data to estimate the adequacy of future taxable profits in order to take advantage of deferred tax assets.
- Not to consider the COVID-19 situation as an indication that an asset may be impaired in accordance with TAS 36, Impairment of Assets.
- Not to consider the COVID-19 situation as an event that results in the current obligation. As a result of past events.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in preparing the interim financial statements are the same accounting policies used in the preparation of the annual financial statements for the year ended December 31, 2019, except for the change in accounting policies according to the Company and its subsidiaries have adopted TFRS 9, Financial Instruments and group of financial reporting standards relate to financial instruments and TFRS 16 Leases which are effective on January 1, 2020, as follows:

3.1 Trade and other current receivables

Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at its present value. Trade and other receivables are stated at the amount expected to be collectible, The Company and its subsidiaries apply the TFRS 9 simplified approach to measuring expected credit losses which uses a simplified approach, which requires expected lifetime losses to be recognised from initial recognition of the receivables. To measure the expected credit losses, trade receivables have been grouped based on the days past due. The expected loss rates are based on the payment profiles and the corresponding historical credit losses which are adjusted to reflect the current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables, and accordingly adjusts the historical loss rates based on expected changes in these factors. The impairment losses are recognised in profit or loss within administrative expenses.

3.2 Financial assets and financial liabilities

Classification and measurement of financial assets

The classification of financial assets depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

The Company and its subsidiaries classify its debt instruments in the following categories:

- those to be measured subsequently at fair value (either through other comprehensive income or through profit or loss); and
- those to be measured at amortised cost.

The Company and its subsidiaries reclassify debt instruments when and only when its business model for managing those assets changes.

The equity instruments held must be irrevocably classified to two measurement categories; i) at fair value through profit or loss (FVPL), or ii) at fair value through other comprehensive income (FVOCI) without recycling to profit or loss.

At initial recognition, the Company and its subsidiaries measure a financial asset at its fair value plus or minus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Subsequent measurement of debt instruments depends on the Company and its subsidiaries's business model for managing the asset and the cash flow characteristics of the financial assets. There are three measurement categories into which the Company and its subsidiaries classify its debt instruments:

- Amortized cost: A financial assets will be measured at amortised cost when the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows. In addition, the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in financial income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented in profit or loss.
- FVOCI: A financial assets will be measured at FVOCI when it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In addition, the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment gains or losses, interest income and related foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and recognised on other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the statement of comprehensive income.
- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises.

Dividends from such investments continue to be recognised in profit or loss when the Company and its subsidiaries's right to receive payments is established.

Changes in the fair value of financial assets at FVPL are recognised in other gains/(losses) in the statement of income as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Classification and measurement of financial liabilities and equity

Financial instruments issued by the Company and its subsidiaries must be classified as financial liabilities or equity securities by considering contractual obligations.

- Where the Company and its subsidiaries have an unconditional contractual obligation to deliver cash or another financial asset to another entity, it is considered a financial liability unless there is a predetermined or possible settlement for a fixed amount of cash in exchange of a fixed number of the Company and its subsidiaries's own equity instruments.
- Where the Company and its subsidiaries have no contractual obligation or have an unconditional right to avoid delivering cash or another financial asset in settlement of the obligation, it is considered an equity instrument.

At initial recognition, the Company and its subsidiaries measure financial liabilities at fair value. The Company and its subsidiaries reclassify all financial liabilities as subsequently measured at amortised cost, except for derivatives.

Recognition and derecognition

The Company and its subsidiaries shall recognize a financial asset or a financial liability in its statement of financial position when, and only when, the Company and its subsidiaries become party to the contractual provisions of the instrument. Regular way purchases and sales of financial assets are recognized on trade-date, the date on which the Company and its subsidiaries commit to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company and its subsidiaries have transferred substantially all the risks and rewards of ownership of the financial assets.

Impairment

The Company and its subsidiaries assess on a forward-looking basis the expected credit loss associated with its debt instruments carried at amortized cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk. The Company and its subsidiaries apply general approach for credit-impaired consideration.

3.3 Leases

At inception of a contract, the Company and its subsidiaries assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company and its subsidiaries assess the lease term for the non-cancellable period as stipulated in lease contract or the remaining period of active leases at the date of initial application (as at January 1, 2020) together with any period covered by an option to extend the lease if it is reasonably certain to be exercised or any periods covered by an option to terminate the lease if it is reasonably certain not to be exercise by considering the effect of changes in technology and/or the other circumstance relating to the extension of the lease term.

Right-of-use assets-as a lessee

Right-of-use assets are recognized at the commencement date of the lease. Right-of-use assets are stated at cost, less any accumulated depreciation and impairment losses (if any), and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

The cost of right-of-use assets also includes an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of the lease term and the estimated useful lives for each of right-of-use assets.

Lease liabilities

At the commencement date of the lease, lease liabilities are stated at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable (if any) and amount expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and its subsidiaries and payments of penalties for terminating the lease, if the lease term reflects the Company and its subsidiaries subsidiaries exercising the option to terminate.

In calculating the present value of lease payments, the Company and its subsidiaries use its incremental borrowing rate, which is determined by referring to the government bond yield adjusted with risk premium depending on the lease term, at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of the interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company and its subsidiaries apply the short-term lease recognition exemption to its shortterm leases those leases that have a lease term of 12 months or less from the commencement date and not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term and leases of low-value assets are recognized as expense in profit and loss on a straight-line basis over the lease term.

3.4 Inventories

Inventories are presented at the lower of cost or net realizable value, cost of inventories is calculated using the following methods:

- Work in process according to the project contract Specific method
- Spare parts and supplies FIFO

The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties, transportation charges and other direct costs incurred in acquiring the inventories less all trade discounts, allowances or rebates.

The costs of work in process according to the contract comprises the cost of equipment material fees, labor costs, costs of subcontracted work and other related expenses.

The net realizable value of inventory is estimated from the selling price in the ordinary course of business less the estimated costs to complete production and the estimated costs to complete the sale

4. CUMMULATIVE EFFECTS OF CHANGES IN ACCOUNTING POLICIES DUE TO THE ADOPTION OF NEW FINANCIAL REPORTING STANDARDS

As described in Note 2.3 to the interim financial statements, during the current period, the Company and its subsidiaries have adopted TFRSs related to financial instruments and TFRS 16 using the modified retrospective method of adoption. The Company and its subsidiaries accrumulated changes in accounting policies due to the adoption of above financial reporting standards, are summarized below:

Financial liabilities as at January 1, 2020 the Company and its subsidiaries has classified as amortized cost.

Impairment of financial assets

The Company and its subsidiaries have trade receivables and long-term loans to related parties that are subject to the expected credit loss model.

Trade receivables

The Company and its subsidiaries apply the simplified approach to measuring expected credit losses, which use a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The expected loss rates are based on the historical payment profiles, the corresponding historical credit losses experienced and the impact of potential factor to the expected loss rates. On that basis, the loss allowance for trade receivables was as follows:

			Thousand	l Baht		
			Consolidated finar	icial statements		
	Not yet due	Up to 3 months	3 - 6 months	6 - 12months	Over 12 months	Total

4.2 Leases

Upon initial application of TFRS 16 the Company and its subsidiaries recognized lease liabilities previously classified as operating leases at the present value of the remaining lease payments, discounted using incremental borrowing rate at January 1, 2020. For leases previously classified as finance leases, the Company and its subsidiaries recognized the carrying amount of the right-of-use assets and lease liabilities based on the carrying amounts of the lease assets and lease liabilities immediately before the date of initial application of TFRS 16.

The Subsidiaries have establishment in Thailand and not dividend payment for the three-month and six-month periods ended June 30, 2020 and 2019.

* According to the minutes of the Executive Committee Meeting No. 1/2020, on January 30, 2020, the company held a meeting regarding the restructing of the shareholders in the indirect subsidiary group. By proposing ACD Energy Company Limited to sale all of ordinary share and transfer all of rights to pledge of preferred shares of the indirect subsidiary, to the company. The meeting acknowledged and presented to the Board of Directors' meeting at the Board of Directors Meeting No. 1/2020 on February 26, 2020, which the meeting has approved as proposed.

Later on, March 19, 2020 the Company entered into an agreement to transfer shares and rights of indirect subsidiary with Thanasub asset management Co., Ltd. (Formerly, ACD Energy Co., Ltd.) (subsidiary) in the amount of Baht 168.38 million (Note 5.4) as follows:

- The 1st party : Undertaking shares of SK-1 Power Co., Ltd amounted 294,000 shares of Baht 30.40 million, rights and obligations under the share pledge agreement as collateral for repayment of loans in the amount of Baht 30.60 million and right to receive interest under the such shares pledge agreement in the amount of Baht 4.52 million, totaling Baht 65.52 million.
- The 2nd party : Undertaking shares of Ventus Solar Co., Ltd amounted 367,497 shares of Baht 61.75 million, rights and obligations under the share pledge agreement as collateral for repayment of loans in the amount of Baht 38.25 million and right to receive interest under the such shares pledge agreement in the amount of Baht 2.86 million, totaling Baht 102.86 million.

As a result of the transfer of shares and rights mentioned above. The company has shareholding proportion as follows:

	Percent	Percentage		
	Previous portion	New portion		
	(as indirect subsidiary)	(as a subsidiary)		
SK-1 Power Co., Ltd.	49.00	49.00		
Ventus Solar Co., Ltd.	49.00	49.00**		

Later, on June 11, 2020, the Company entered into a memorandum of agreement to confirm the preferred share transfer of Ventus Solar Co., Ltd. from Astronergy Solar (Thailand) Co., Ltd. for 382,500 shares in the amount of Baht 41.55 million (Note 5.4). From the result of the share transfer, the Company has investment in Ventus Solar Co., Ltd. in total of Baht 103.30 million resulting in the percentage of shareholding in such company to increase from 49.00%** to 99.99% of the registered and paid-up capital.

As for the change in the parent company's shareholding proportion in the subsidiary that does not cause to lose control of the subsidiary, the difference between the decreasing amount by which the non-controlling interests was adjusted and consideration paid was recognized directly in shareholders' equity. Such differences can be calculated as follow:

	Thousand Baht
Carrying amount of non-controlling interests acquired	43,350
(Less) Consideration paid to non-controlling interests	(41,546)
Surpluses from the change in the ownership interests in subsidiary	1,804

Subsidiary Company

At the Extraordinary General Meeting of Shareholders No. 1/2563 of Thanasub Asset Management Co., Ltd. held on March 19, 2020 has resolved a special resolution to decrease the authorized capital for the amount of Baht 132.00 million from the former authorized capital of Baht 177.00 million to Baht 45.00 million by reducing the number of shares for 13.20 million shares at the par value of Baht 10.00 per share. After a reduction of the authorized capital, the Company still hold shares of subsidiary company for 4.50 million shares at the per value of Baht 10.00 per share or 99.99% proportionately of authorized capital and has already registered with the Department of Business Development, Ministry of Commerce on April 27, 2020.

From such capital reduction affects investment in subsidiaries of the Company as follows:

	Number of shares Thousan		nd Baht	
	At an investment Share capital		Investment in	
	company	Subsidiary Co		
	(Million shares)			
As at beginning balance	17.70	177.00	86.00

22. PRIVILEGES FROM INVESTMENT CERTIFICATE

The Company and two subsidiaries have received the rights and benefits from the Board of Investment in the promotion of electricity generation from solar energy for 3 issues, with the following tax incentives.

- Exemption from import duty on machinery as approved by the Board.

- Exemption from payment of corporate income tax on net profit derived from the promoted activity for the period of 8 years from the date of income earnings and the comply with the promotion certificate must be met. In the case where a loss has been incurred during the period of receiving exemption of corporate income tax. The promoted subsidiary is granted permission to deduct such annual loss from the net profits accrued after the expiration of the period of exemption of corporate income tax 5 years from the expiry of such period.

The company and its subsidiaries must strictly comply with the conditions specified in the investment promotion certificate.

23. FINANCIAL INSRUMENTS

The Company and its subsidiaries uses the market approach to measure its assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data.

As at June 30, 2020, the Company and its subsidiaries had the following assets that were measured at fair value using different levels of inputs as follows:

-	Thousand Baht						
-	Consolidated and separate financial statements						
	Carrying		Fair V	Value			
-	amount	Level 1	Level 2	Level 3	Total		
Asset							
Financial assets measured at fair value							
through profit or loss							
Other current financial assets							
Listed equity investments	1,690	1,878	-	-	1,878		
Other non-current financial asset							
Other non-marketable equity instruments	185,000	-	-	36,939	36,939		

Level 3 fair values for other non-marketable equity instruments are based on the valuation are annual revenue growth rate, expected earnings before interest tax depreciation and amortisation (EBITDA), expected net profit margin, dividend yield, relevant information of comparable equity securities and relevant risk factors.

24. COMMITMENTS AND CONTINGENT LIABILITIES

24.1 Operating lease and service agreement commitments

As at June 30, 2020 and December 31, 2019 future minimum lease payments under these operating leases contracts were as follows.

Separate financial statements	
As at December	
31, 2019	
2,038	
658	
2,696

The Company and its subsidiaries recognized the lease liabilities previously classified as operating lease at the present value of the remaining lease payments, discounted incremental borrowing rate, as described in Note 19 to the interim financial statements.

24.2 Agreement regarding the acquisition of rights to distribute electricity from solar energy

The Company and subsidiaries entered into agreements with many counterparties regarding the acquisition of the right to distribute electricity from solar energy as follows: The Company

On August 23, 2018, the Company entered into the third-party agreement between the Company (transferee), Provincial Electricity Authority (counterparty) and J.E Solar Co.,Ltd. (subsidiary) (transferor) to amended in the Power Purchase Agreement for the purchase of electricity from solar power generation installed on the roof in order to transfer all rights and obligations under the agreement to the Company that received the rights to distribute solar electricity current installed on the roof with the Provincial Electricity Authority according to the contract No. PV-PEA 0065/2556 dated September 6, 2013, in which PEA purchases 995 kilowatts of electricity for a period of 25 years, starting from December 30, 2013 to December 30, 2038 at the determined rate according to the production volume, which is Baht 6.16 per unit. On January 21, 2019, the Company also received the approval for transfer the tax privilege from investment promotional to the parent company as stated.

Subsidiaries

SK-1 Power Co., Ltd. (subsidiary) has entered into an amendment of the power purchase agreement for the purchase of electricity from solar power generation with Metlink Info Co., Ltd. that has been granted rights to the Provincial Electricity Authority to receive the rights to generate and distribute electricity current according to the same conditions in which the transferor made with the PEA for the project period of 25 years.

The subsidiary has entered into an agreement to be a sponsor of the solar power plant project, installed on the ground, to use rights from the project owner. The subsidiary will pay the project subsidy to the project owner on a yearly basis amount of Baht 3.30 million each by making after the sponsor distributed the electricity current project for 1 year (the right payment will be paid by monthly). The subsidiary has to pay subsidy until the termination of the agreement (April, 2041) amount of Baht 76.45 million.

Ventus Solar Co., Ltd. (subsidiary) entered into agreements with several parties relating to the acquisition of rights to distribute electricity current from solar energy as follows.

On January 20, 2017, entered into an agreement to purchase a solar power project on the ground, located in Pak Chong Dairy Cooperative from Astronergy Solar (Thailand) Co., Ltd., which has been granted the right to distribute electricity current from the Provincial Electricity Authority with the agreement value is Baht 294.99 million. On February 20, 2017, the subsidiary entered into an amendment to receive the transfer the rights in the Power Purchase Agreement with the Provincial Electricity Authority from the existing counterparty in accordance with the power purchase agreement No. PVF2-PEA-018/2559 in the maximize 5.0MW of the electricity energy by determining the distribution date to commercial system within April 30, 2017 for a period of 25 years.

On April 3, 2017, the subsidiary entered into a joint development agreement for the solar power generation project with Pak Chong Dairy Cooperative Limited, for which the project owner has to provide land to be used as the project address and the subsidiary is a project sponsor and entered into agreement with the Provincial Electricity Authority and applied for licenses and others by sharing the returns as indicated in agreement.

On April 18, 2018, the subsidiary and dairy cooperative have jointly entered into agreement to lease land with a land owner for use as project address of the electricity generation project starting from December 1, 2016 to December 1, 2041 (the existing issue dated July 14, 2016) for an agreement period of 25 years. As at December 31, 2018, total rental is Baht 38.40 million, the cooperative has made the payment for the amount of Baht 26.40 million on a monthly basis amount of Baht 88,008 each. The Company has to pay total amount of Baht 12.00 million on monthly basis of Baht 40,008 each.

24.3 Contingent liabilities

As at June 30, 2020 and December 31, 2019, two subsidiaries have long-term loans from financial institutions that have not been drawn down.

25. LITIGATION

As at June 30, 2020 and December 31, 2019, the Company and subsidiaries were sued in the many cases, the significant are as follows:

The Company

25.1 The Company has deposit receivable amount of Baht 46 million arose from the transfer of right to claim deposit of land to a company which is matured in September 2015. Such company did not settle debt on due and negotiated with the Company for changing the repayment condition to be made by installment with interest as concerned by relevant company. In 2016, the Company has not yet received the repayment. So, the Company has provided allowance for doubtful accounts in full amount and entered into the prosecution.

As at June 30, 2020, the said case is finalized. The court has ordered the Company to win the case. Currently, the case is in the process of tracking the execution of the debtor to payoff the debt in accordance with the court order.

25.2 The Company has filed a claim indemnity from the counterparty for recovery deposits. On July 29, 2015, the Company entered into covenant with a project owner to study the residence building for rent in Chiang Mai Province. On August 3, 2015, the Company has paid deposit against such project amount of Baht 35 million. The project owner has to return deposit in full amount where the Company intended not to joint investment. According to minutes of Board of directors' meeting held on February 9, 2016, passed the resolution to deny the joint investment in such project and the Company has sued for calling the return of guarantee. And on August 17, 2016, the Company was filed a counterclaim by the counterparty for claiming amount of Baht 50.00 million. At present, the case is still pending the Supreme Court's trial.

As at June 30, 2020, the said case is being considered by the court, the Company therefore recorded full allowance for doubtful accounts.

25.3 The company has a case against a former employee in the amount of Baht 2.00 million. At present, the company and the employees agree to the settlement by the court ruling on July 3, 2020. There is no party to the appeal, the case is considered final.

26. CORONAVIRUS DISEASE 2019 PANDEMIC

The Coronavirus disease 2019 pandemic is continuing to evolve, resulting in an economic slowdown and adversely impacting most businesses and industries as a whole. The situation affects the results of operations of the Company and its subsidiaries, recognition and measurement of assets and liabilities in the financial statements. Nevertheless, the management will continue to monitor the ongoing development and regularly assess the financial impact in respect of the valuation of assets, provisions and contingent liabilities.

27. APPROVAL OF THE INTERIM FINANCIAL STATEMENTS

These interim financial statements were authorised for issue by the Company's board of directors on August 11, 2020.
